

WOODLINE panels

General characteristics of the products

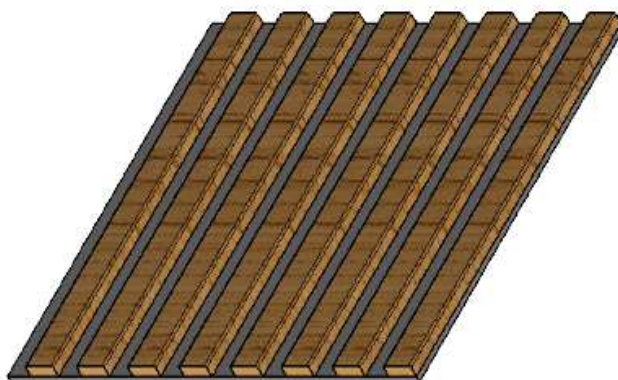

WOODLINE panels are products consisting of a polyester backing and MDF strips with veneer.

The backing comes in two colours: black and grey.

The strips come in four types: black matt, sonoma oak, Polish oak and brown oak, white, concrete, olive, teal.

Sizes available:

1. WOODLINE WL 2700x300 wall panel with a height of 2700mm (+/-3mm) and a width of 308mm (+/-2mm) (the last strip covers the panel joint).
2. WOODLINE WL 2700x400 wall panel with a height of 2700mm (+/-3mm) and a width of 408mm (+/-2mm) (the last strip covers the panel joint).
3. WOODLINE WL 300x300 wall panel with a height of 300mm (+/-3mm) and a width of 300mm (+/-2mm).
4. WOODLINE WL 400x400 wall panel with a height of 400mm (+/-3mm) and width of 400mm (+/-2mm).

Purpose and scope of use

WOODLINE panels are designed for installation on interior walls. They can be installed individually or connected with one another.

Installation instructions

Installation kits are not included with the WOODLINE panels. The method of installation must be chosen individually (type of walls, installation possibilities, etc.).

Storage and transport

The products should be stored and transported in the original manufacturer's packaging and stored in a roofed area. Store only in a dry place and protect from moisture.

Care should be taken to ensure that the panels are not bent, in particular they should not be stored vertically as this can cause permanent deformation.

Each package should bear information including at least the following details:

- the name and address of the manufacturer,
- trade name,
- number of pieces per pack,
- pictographic description of installation.

Safety

General health and safety rules must be observed during installation and use.
